About us:

Flowers Design School has been successfully delivering floristry training since 1994 and is well known in the Australasian Floral Industry for quality and unique training opportunities with a strong influence in Contemporary European Design. Our policy is to provide professional training to guide our students to reach their fullest potential.

This is provided by highly trained European Master Florists and specialised floral and retail trainers with highly respected degrees. All our lecturers are qualified Nationally Workplace Trainers/ Assessors with a minimum of 10 years industry experience in their speciality field. Our friendly support staff will assist you in all aspects from enquiries to enrolment and training start to successful completion of your chosen career path.

As innovators of floral education, we provide world-class training opportunities by a sharing of internationally recognised knowledge and skills. We achieve our vision by actively living our values. Our focus on quality is reflected in our qualified and experienced team of trainers, administrators, client service and management. We, as a team have a strong commitment to provide training in a warm and welcoming atmosphere, where each student is treated with respect, fairness, honesty and loyalty. This is reflected within our established and trusted industry network with employers and training bodies.

Our success stories of Award winning graduates from all parts of the country confirm our commitment to all our students and employers. Check our website www.floristry.com.au

Location and School facilities

Flowers Design School have recently relocated to new premises, and we are now situated at Suite 39C, City West Centre, Plaistowe Mews, West Perth. City West is centrally located from the city and near the City West train stop. To get to this stop you will need to use the Fremantle Train Line from Fremantle or Perth and get off at the City West station. The flower markets are only a few minutes away and the next train stop along at West Leederville. Our air conditioned teaching studio comprises 2 classrooms with a maximum number of students restricted to 14 at any one time. All classrooms are fitted with workbenches and comfortable chairs. We also provide a number of student workstations with free access to the internet during operating hours.
